The most important single factor
in improving quality of education
is teachers.

*“Most studies find that **teachers account for about 1% to 14% of the variability in test scores.**”*

- American Statistical Association, 2014

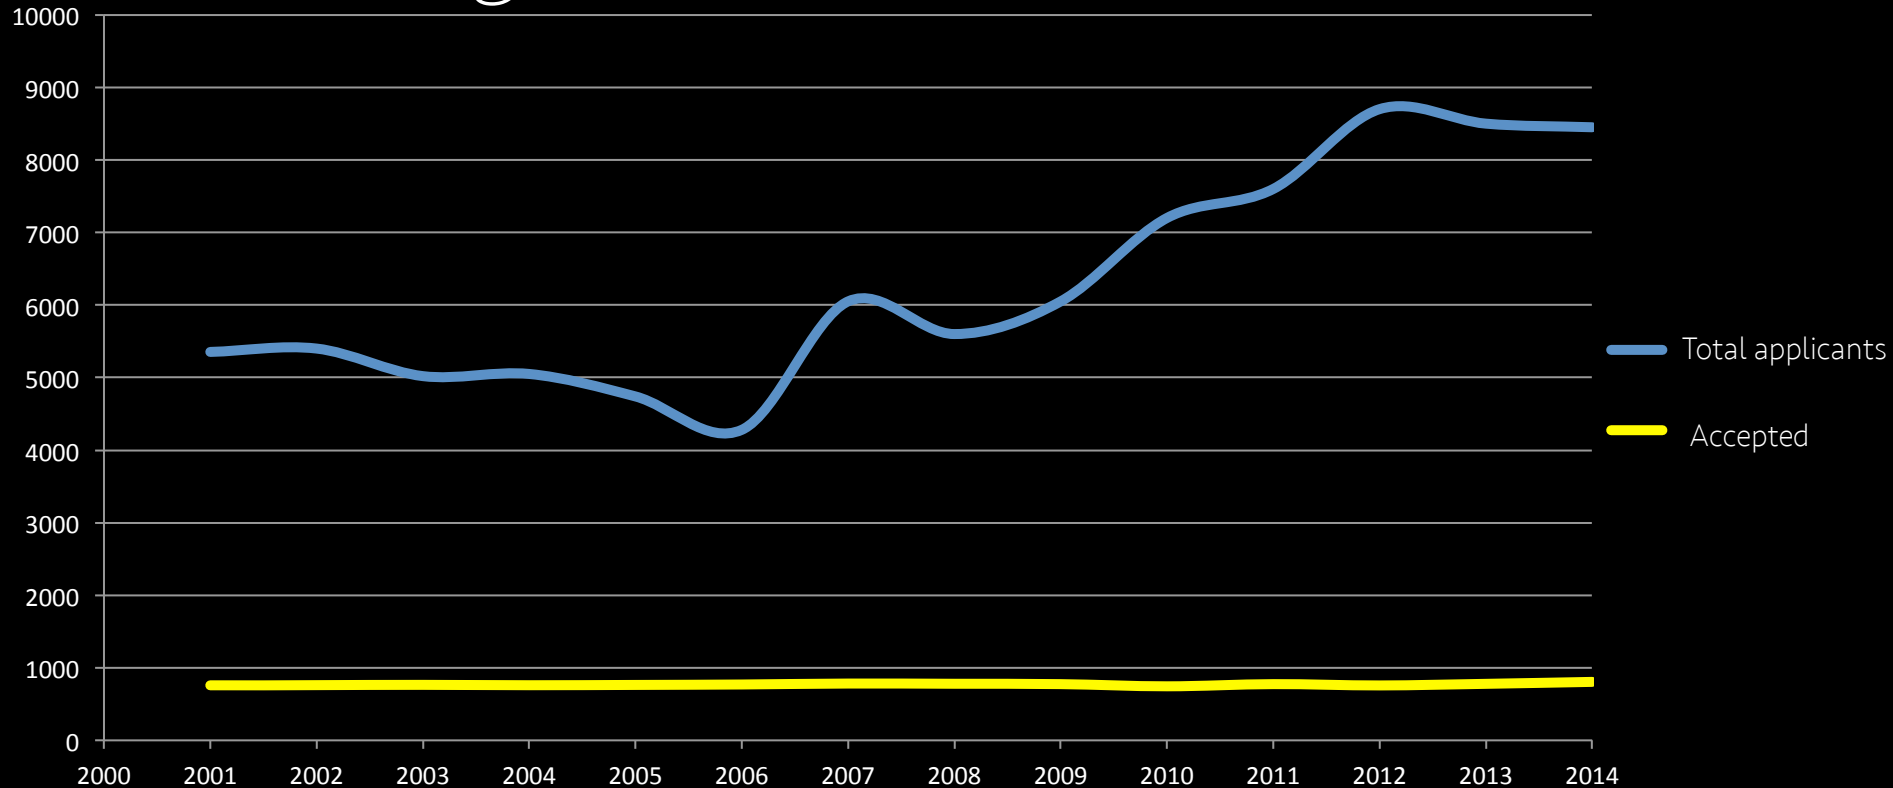

2

Low-ability teachers perform as well as teachers of average ability if they have strong social capital in their school.

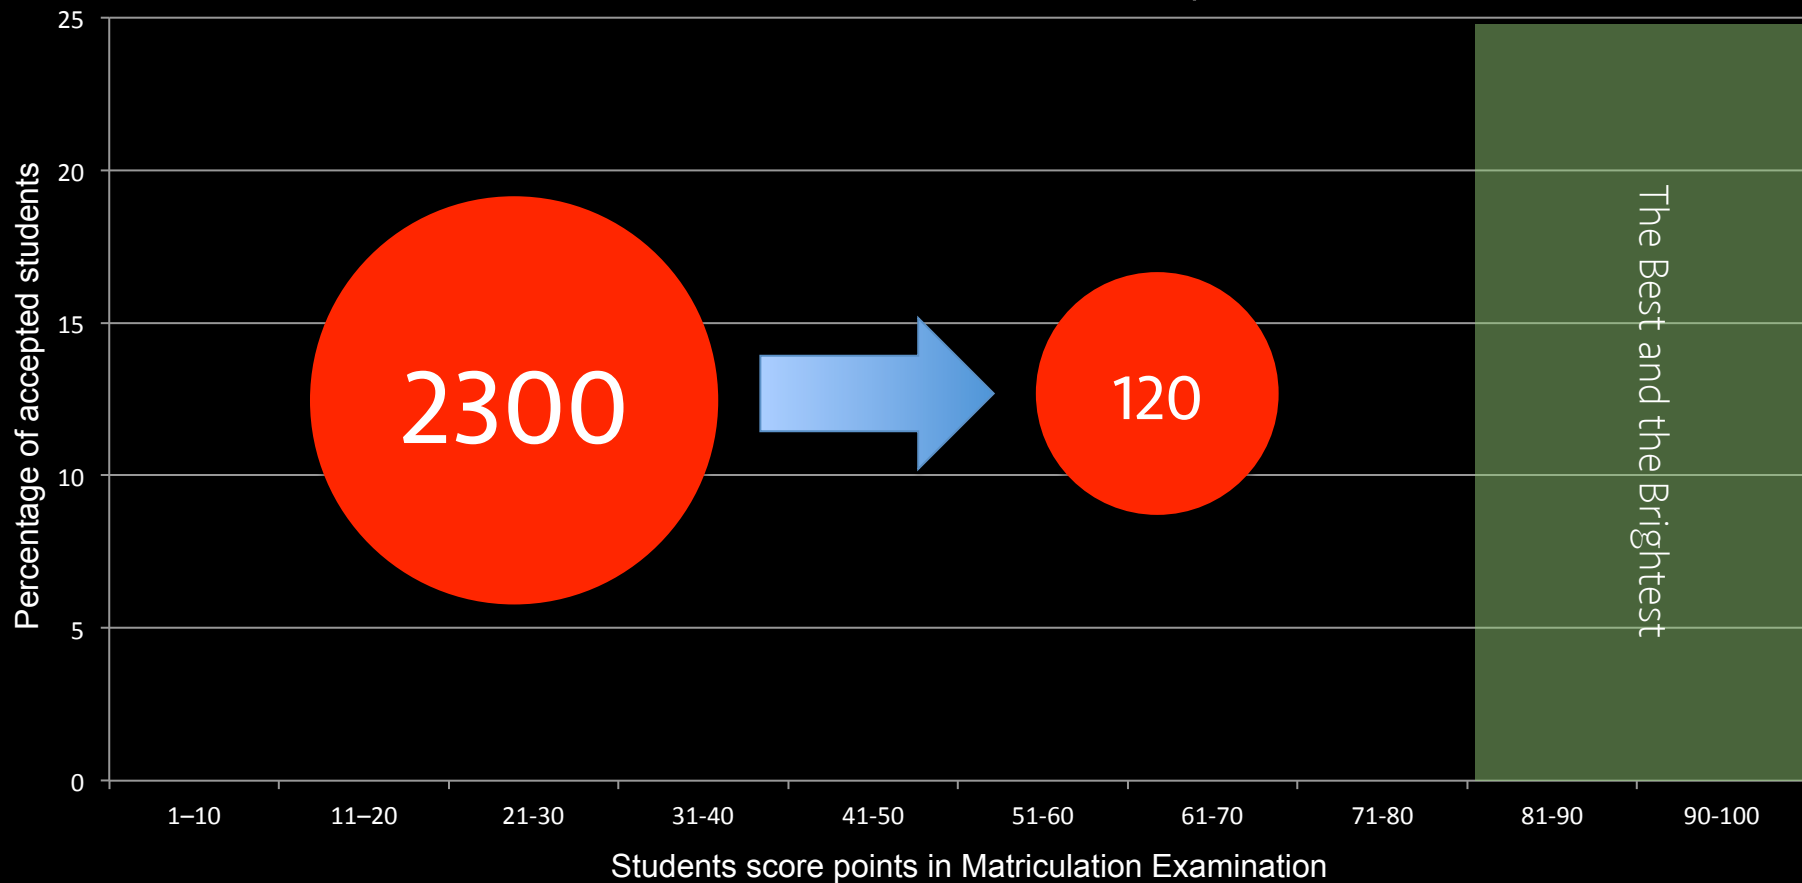

3

Getting “the best and the
brightest” to teach is the
condition for teacher quality.
