

National Visual Art Education Conference

OUR SCHOOLS

Pasi Sahlberg

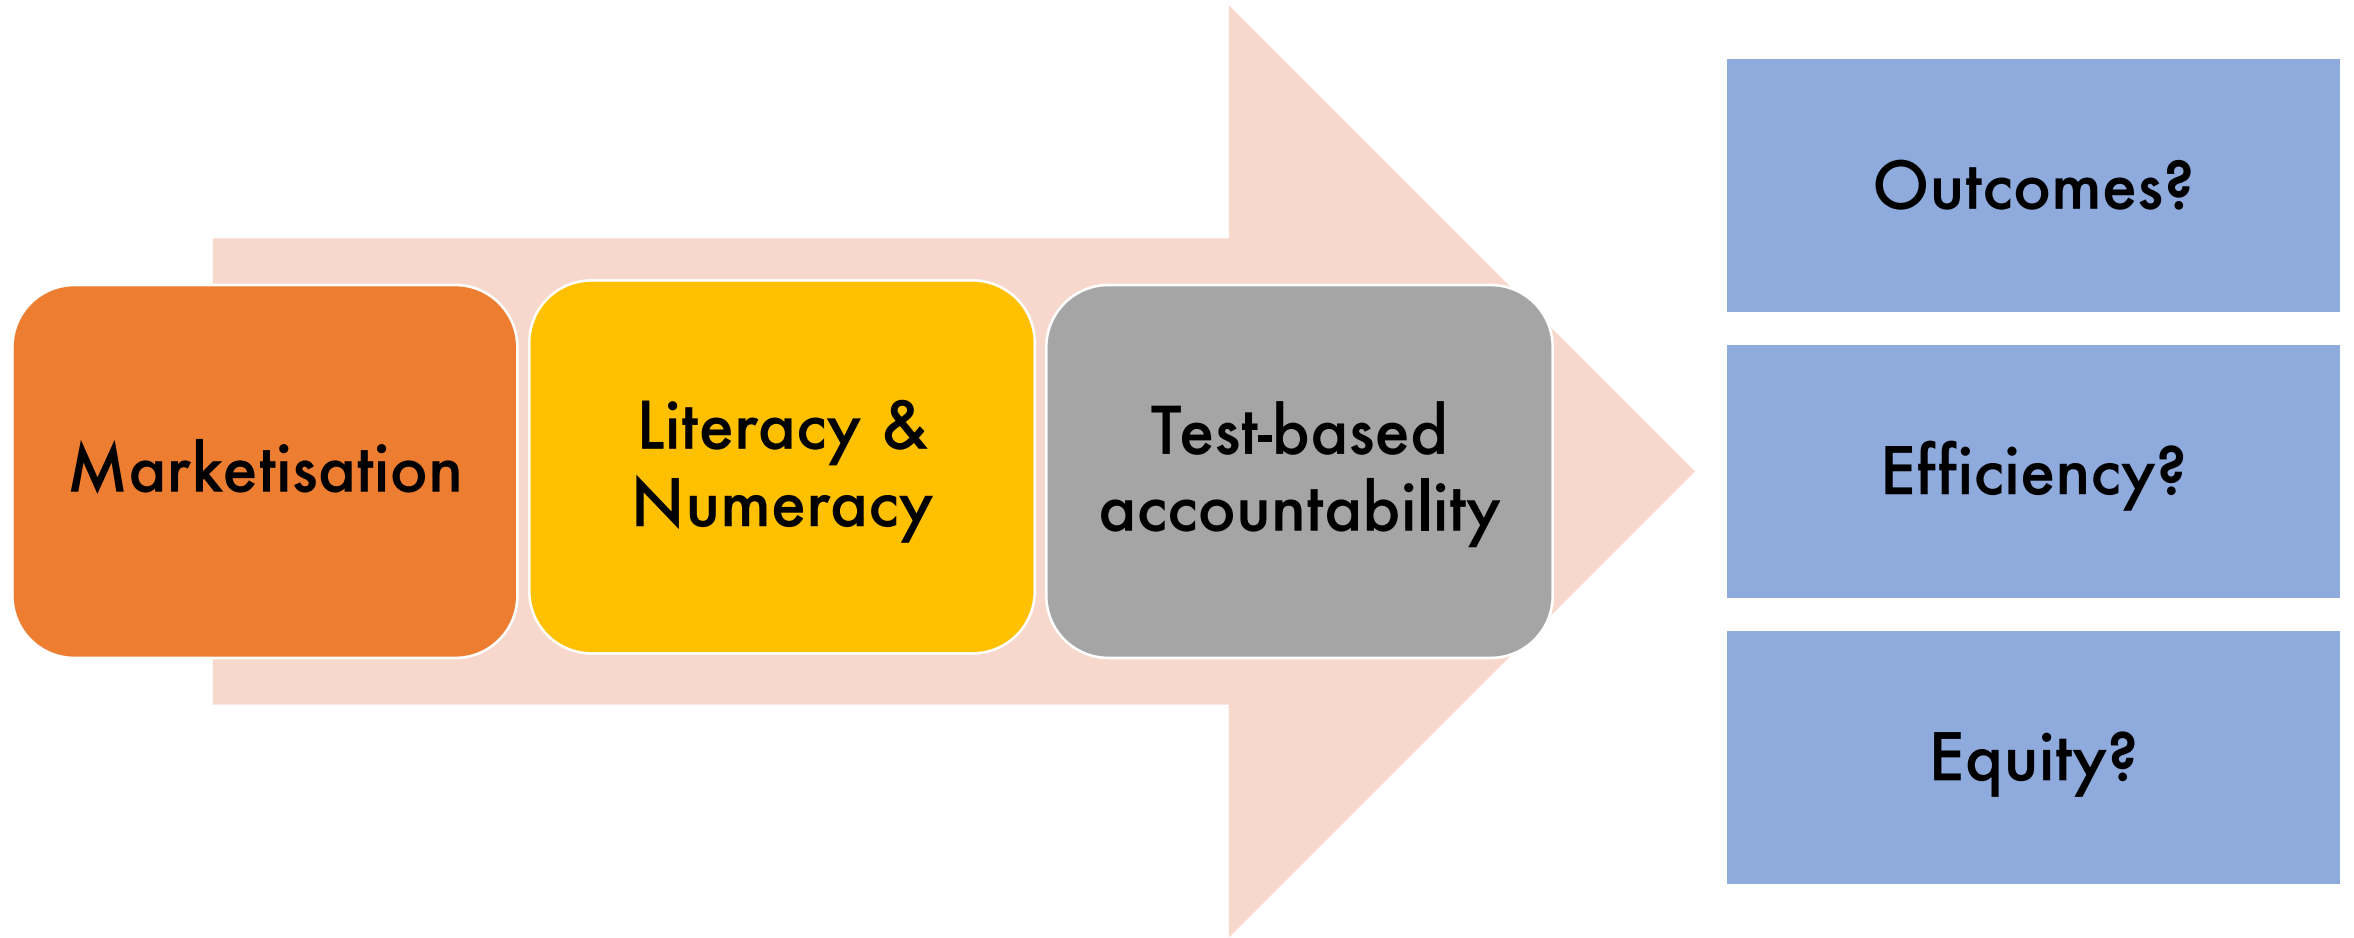

23 January 2024

National Gallery, Kamberri

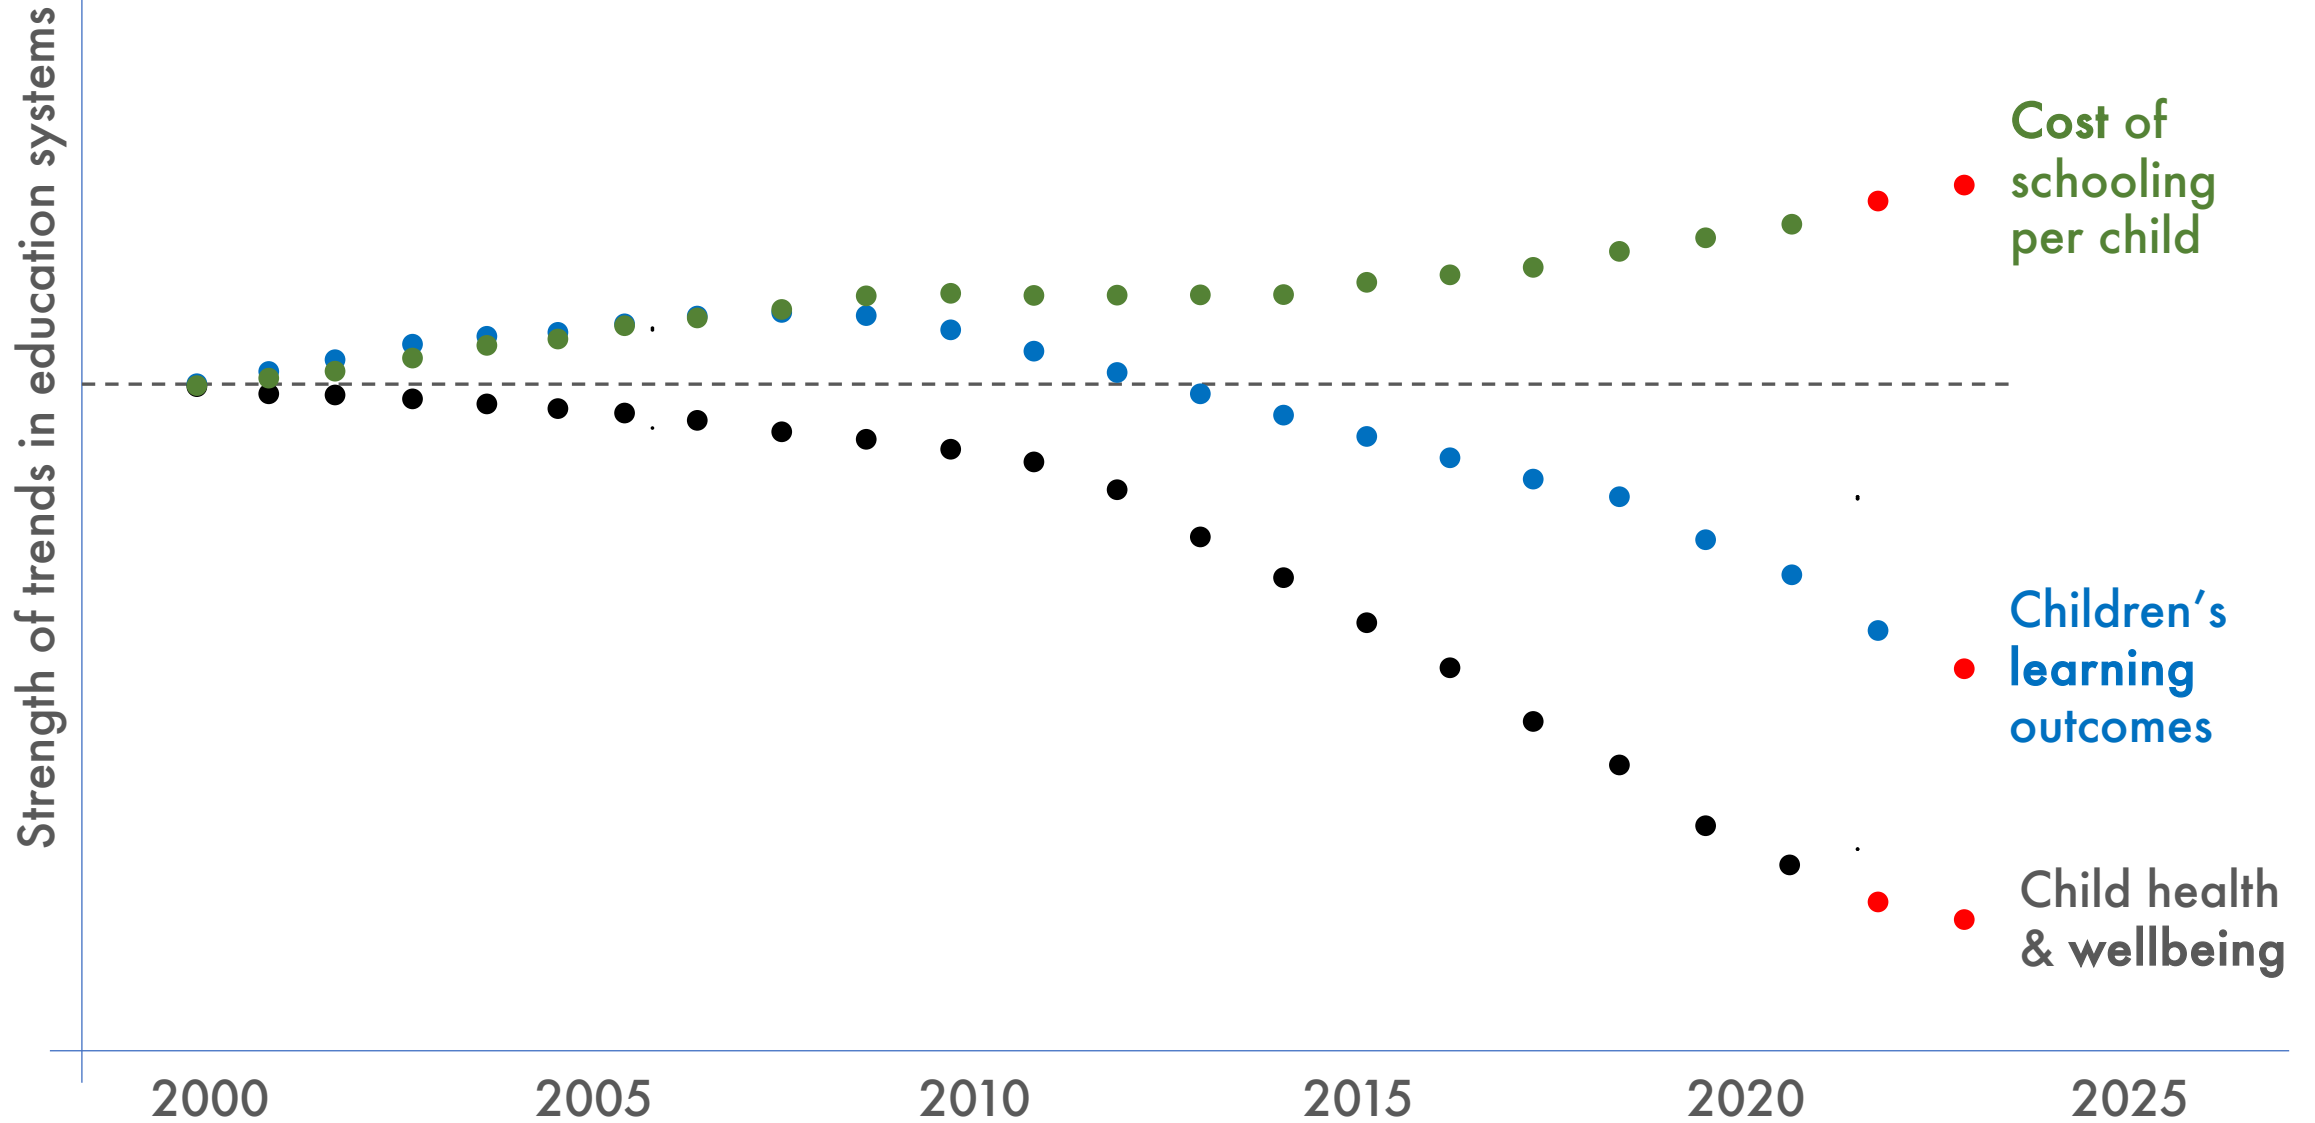

Part 1:

The state of school education

Global education reform movement: *Pre-2020*

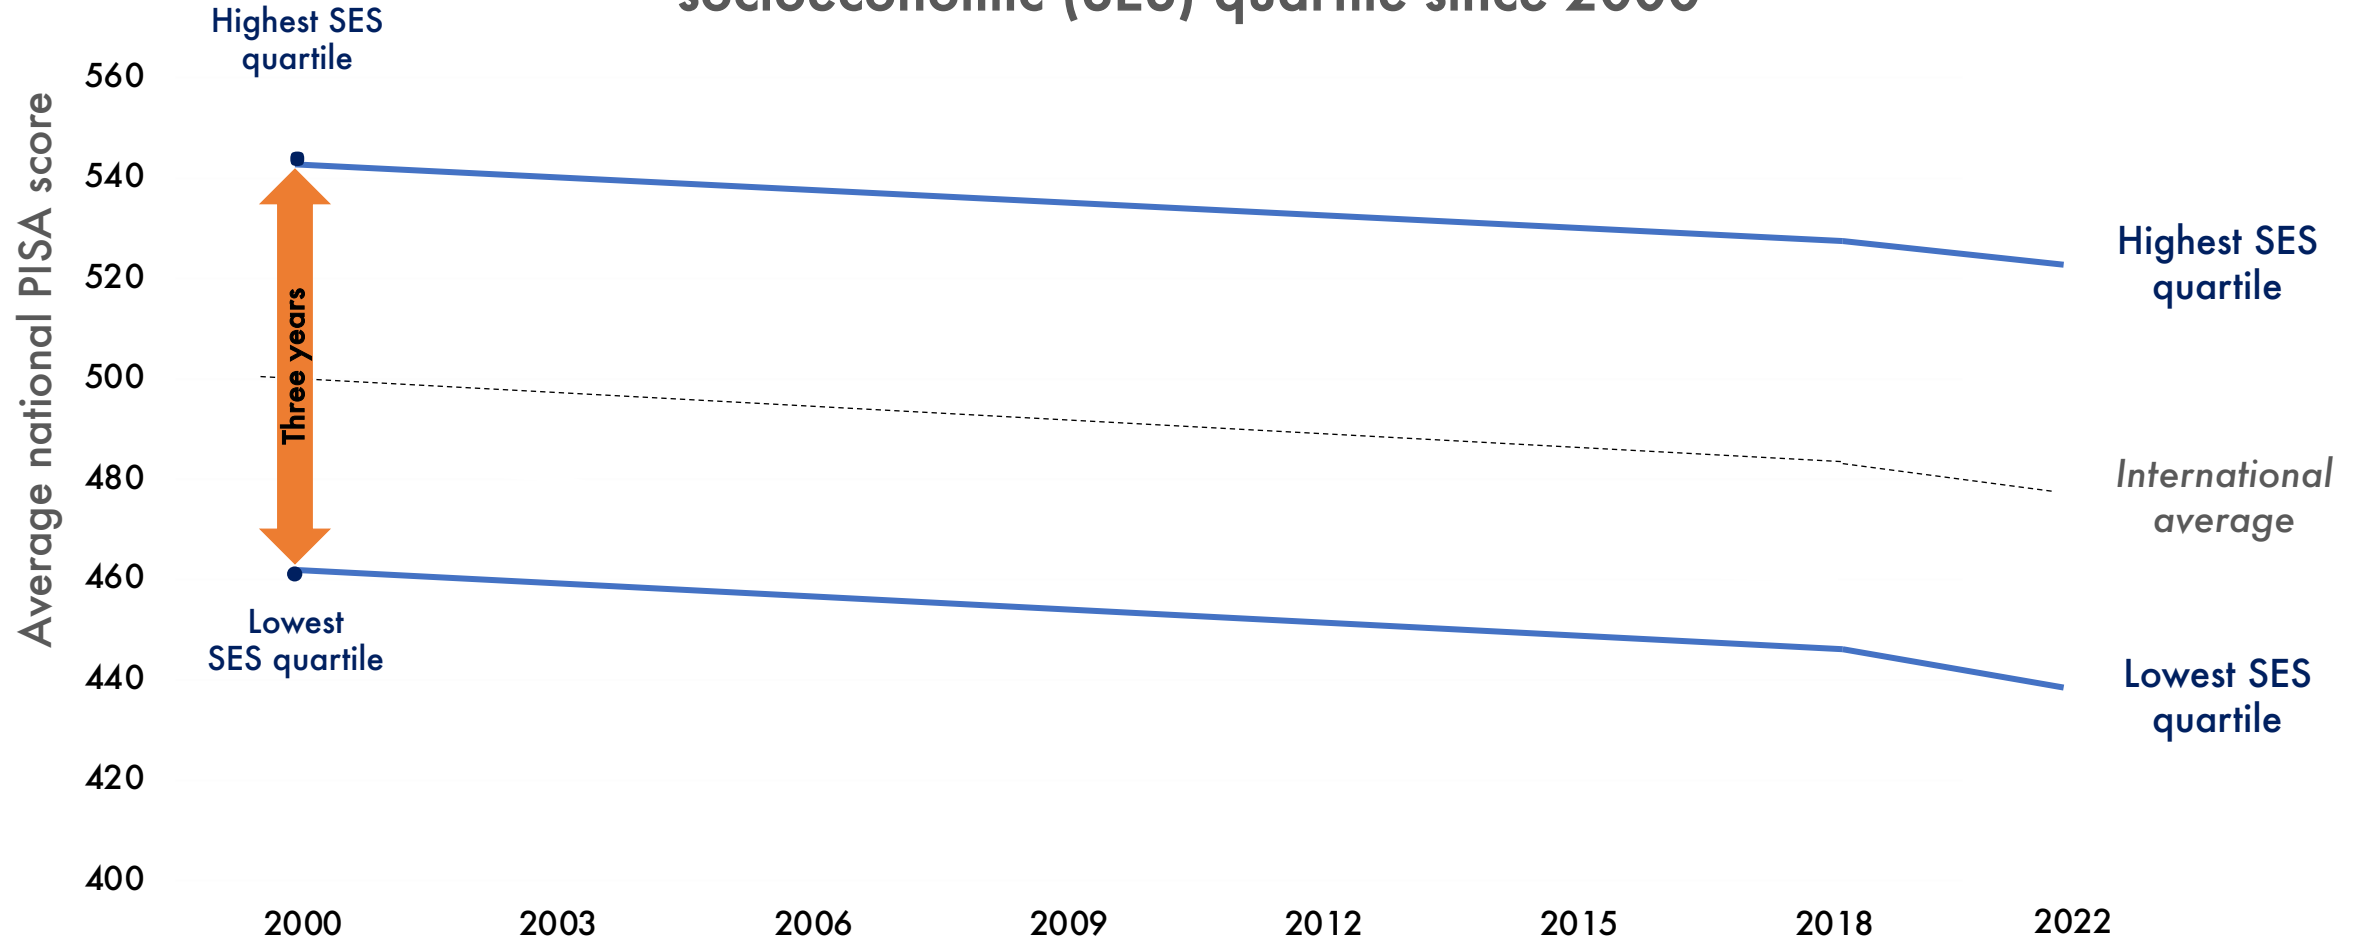

Global trends since 2000

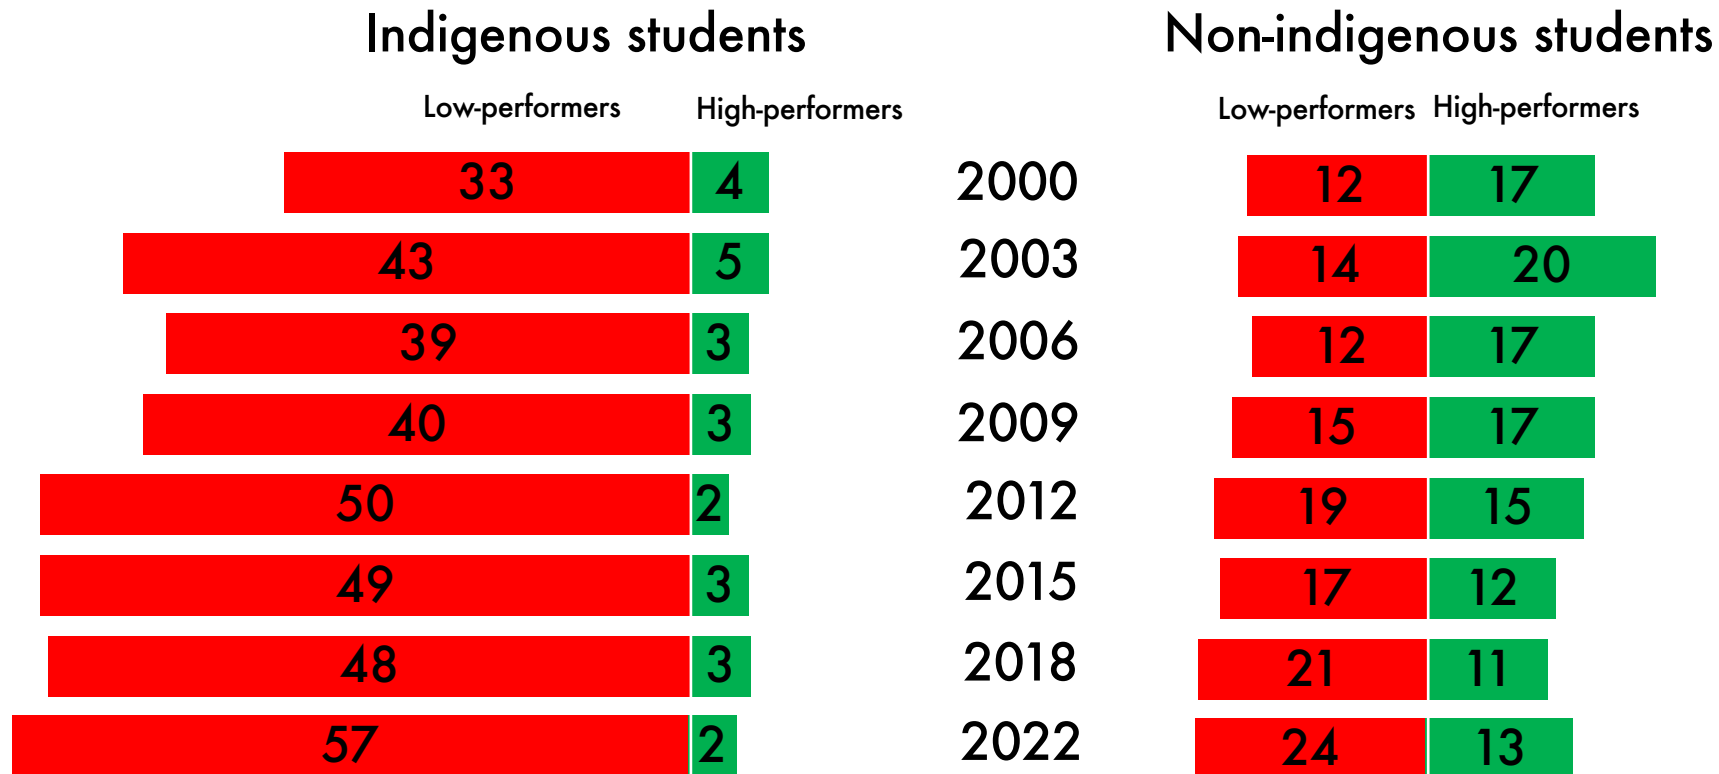

Achievement gaps since 2000

Average student academic achievement in OECD countries by socioeconomic (SES) quartile since 2000

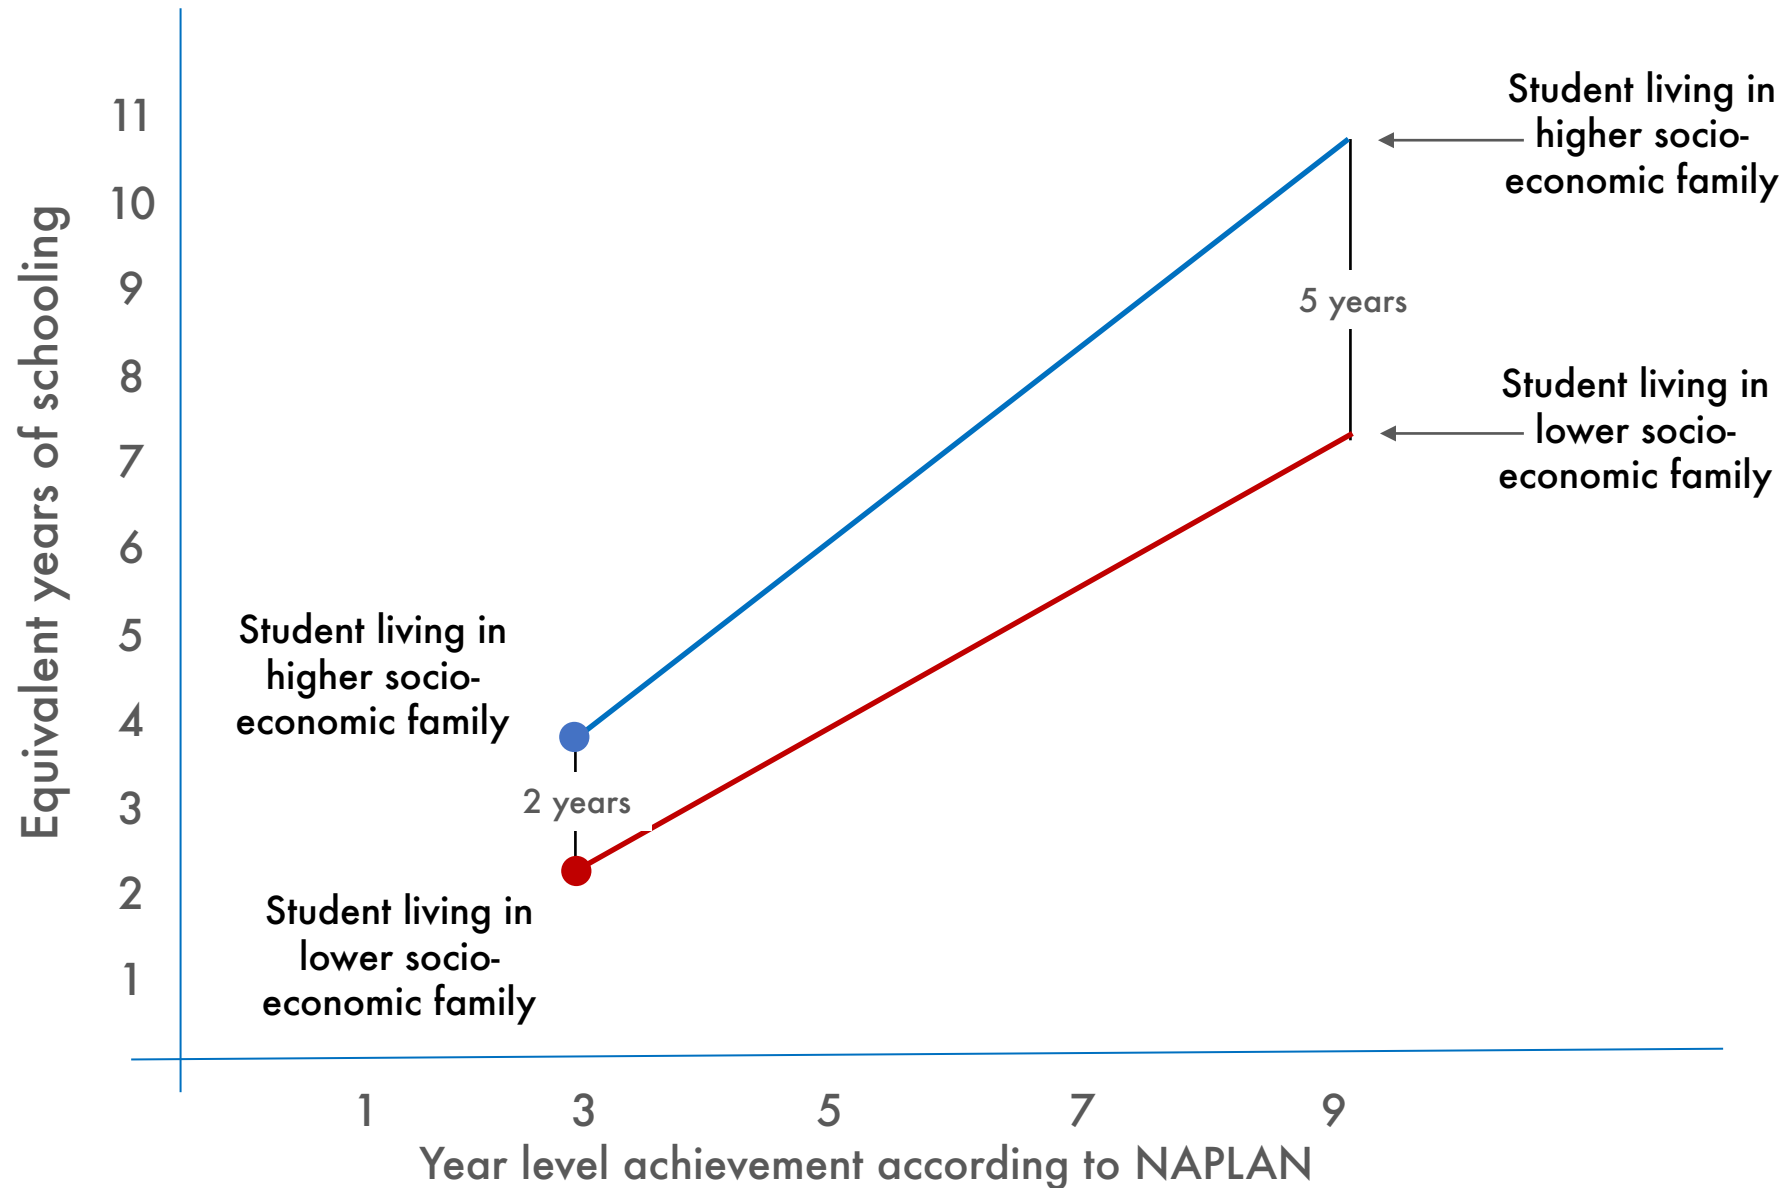

Achievement gaps since 2000

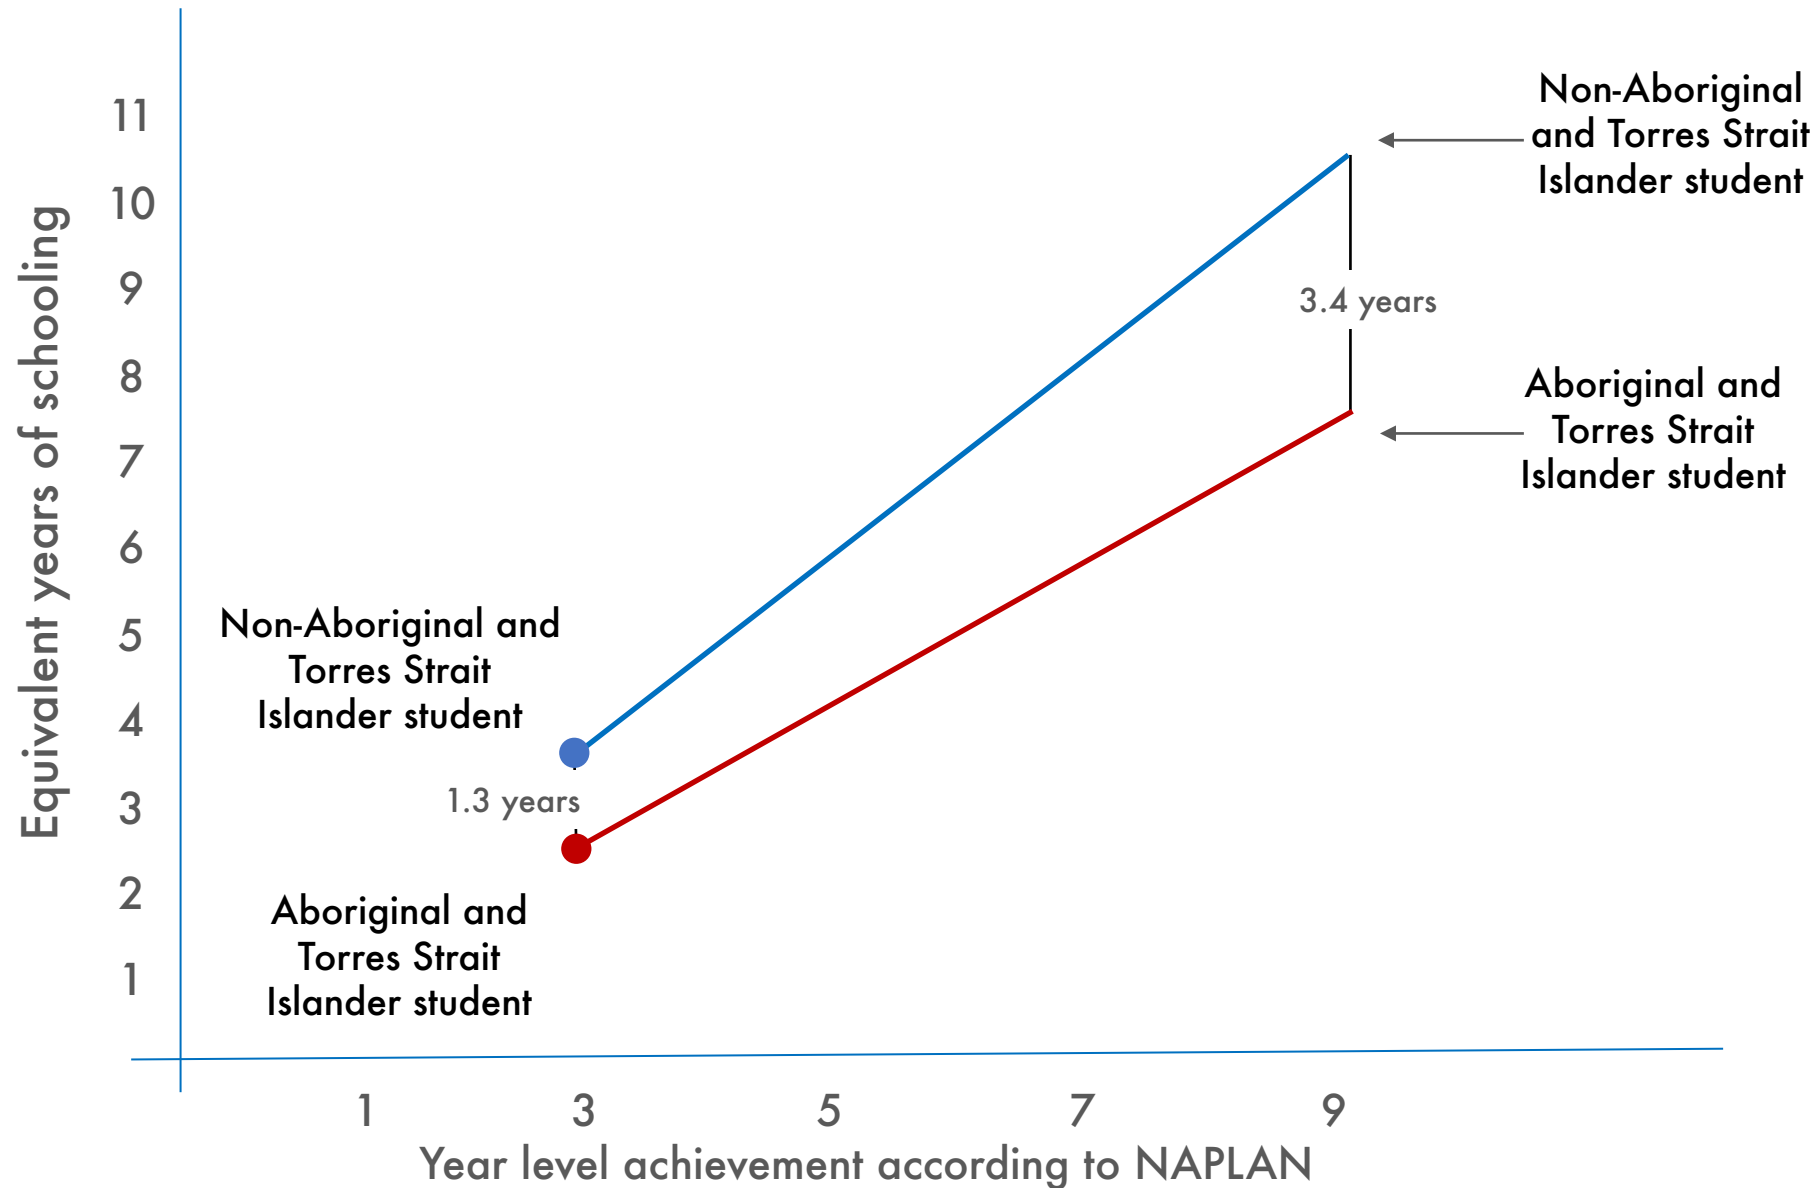

Proportion of low and high performers in Australia on the PISA reading literacy proficiency scale by Indigenous background since 2000

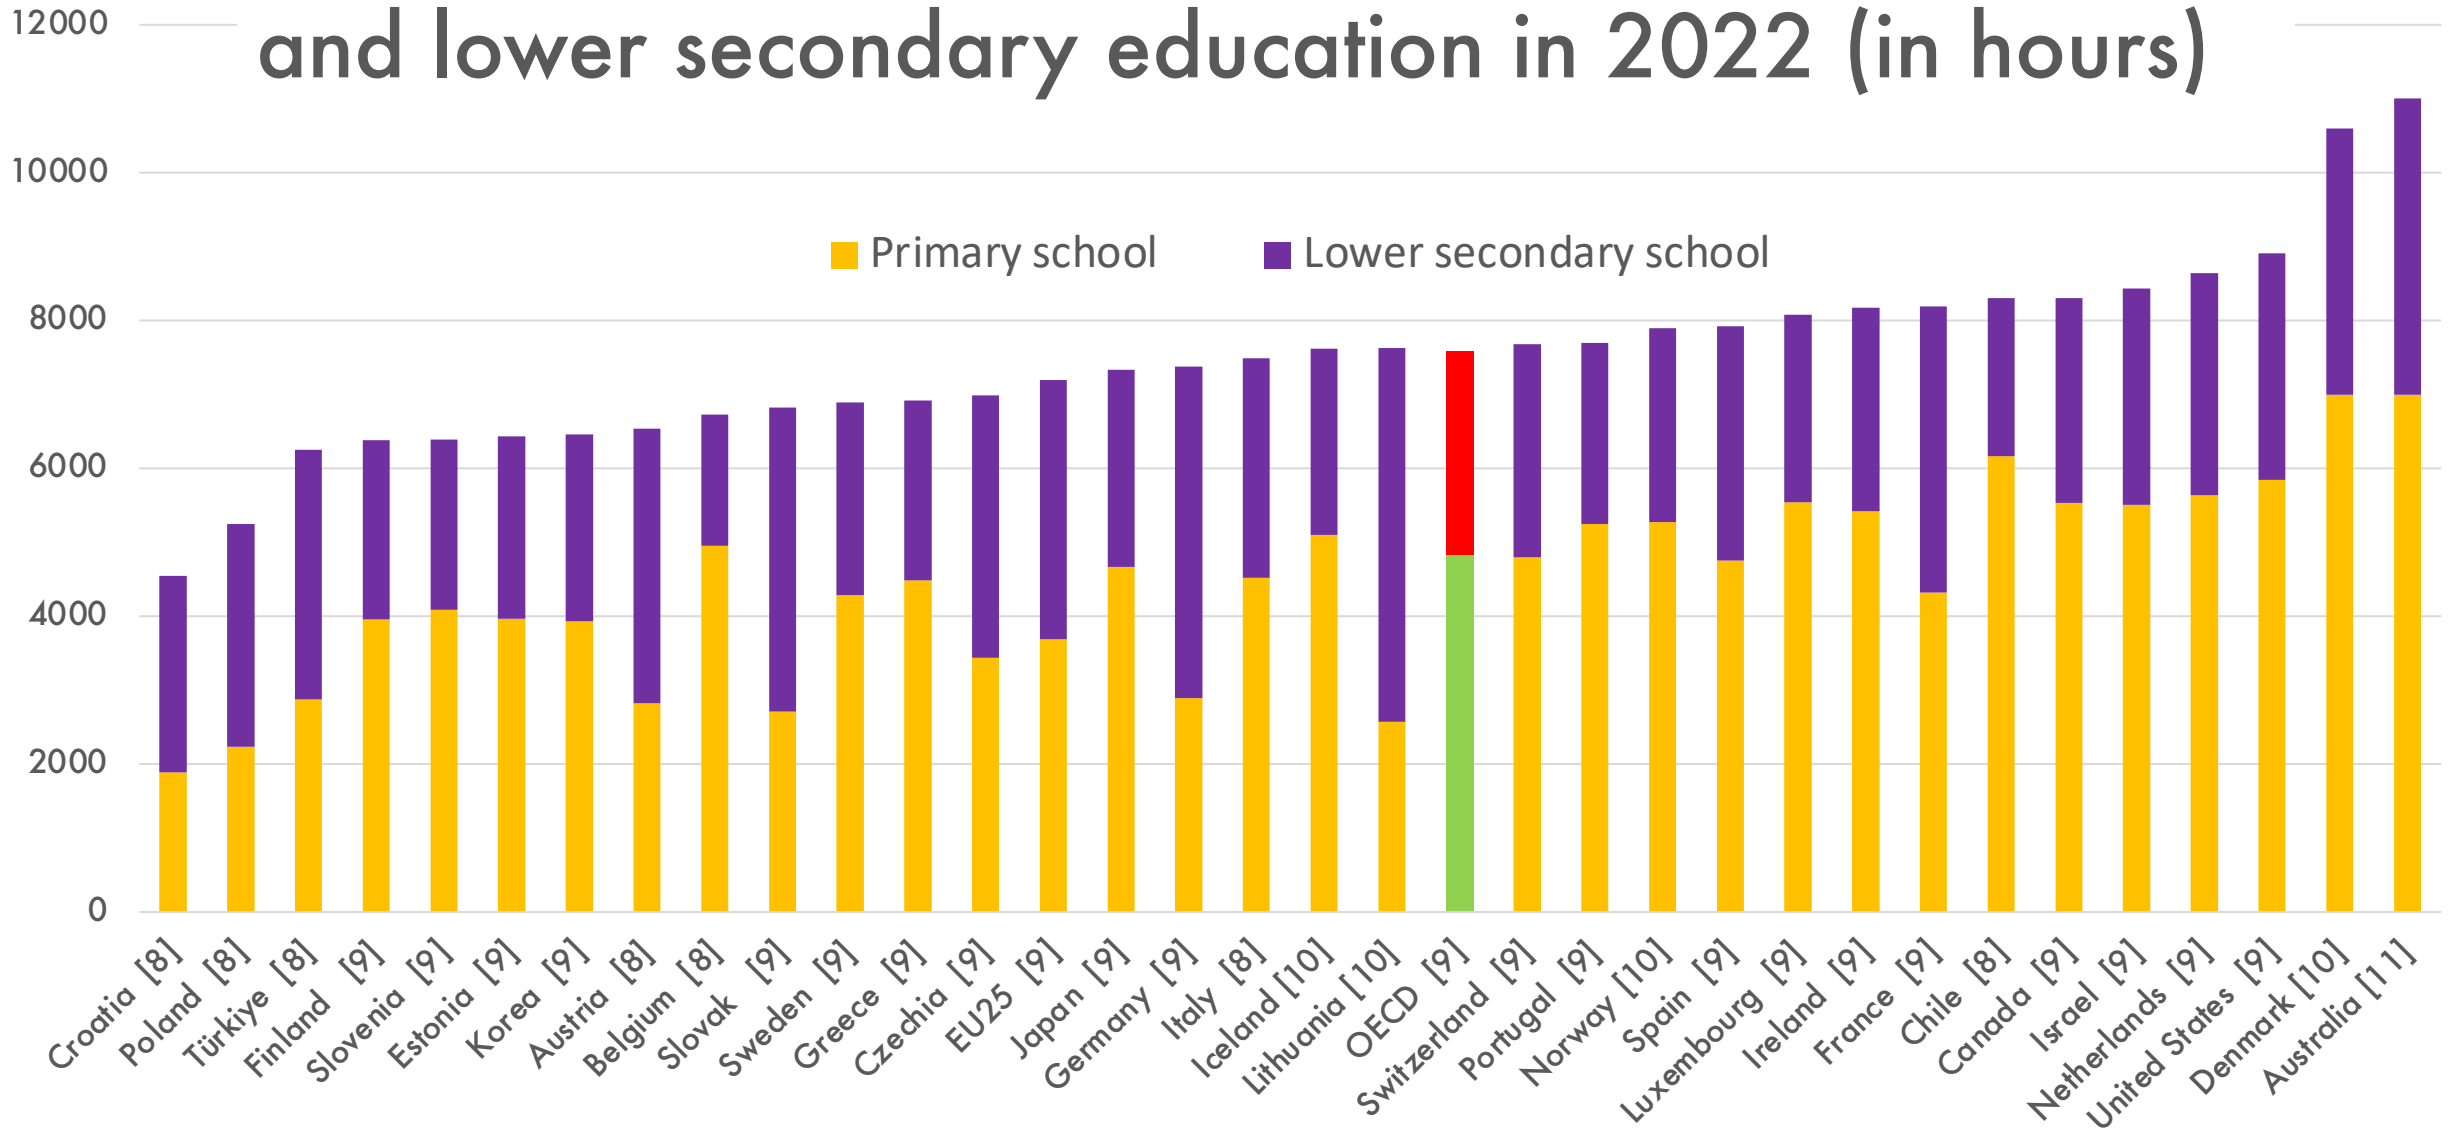

Do schools level the playing field?

Do schools level the playing field?

Total compulsory instruction time during primary and lower secondary education in 2022 (in hours)

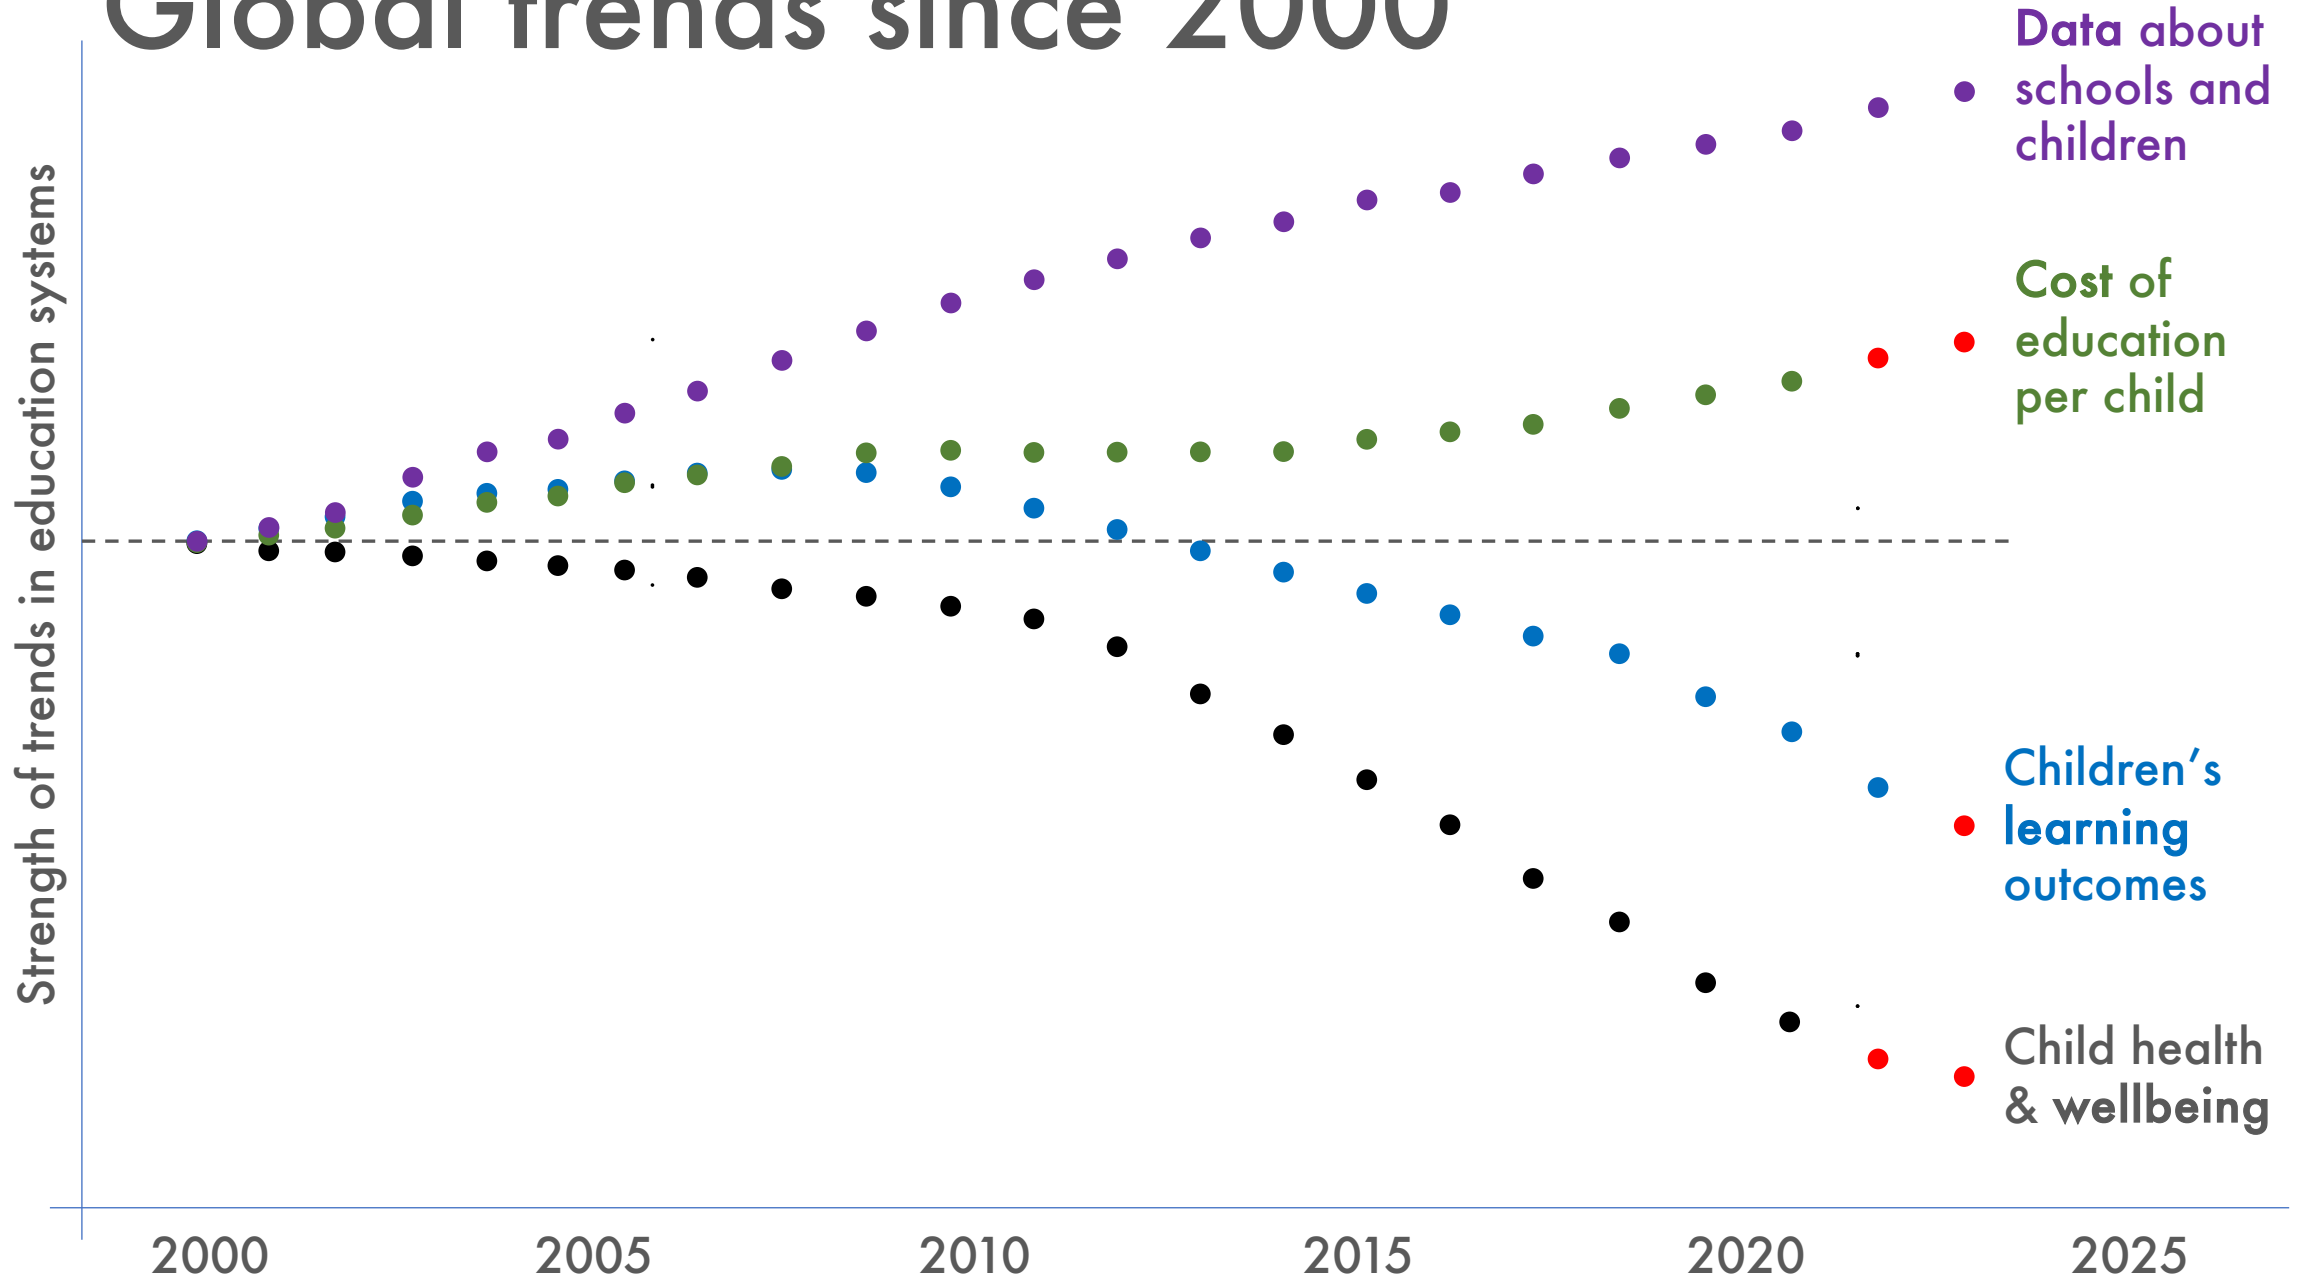

**We can't fix education
by using the same kind
of thinking that led to
current problems!**

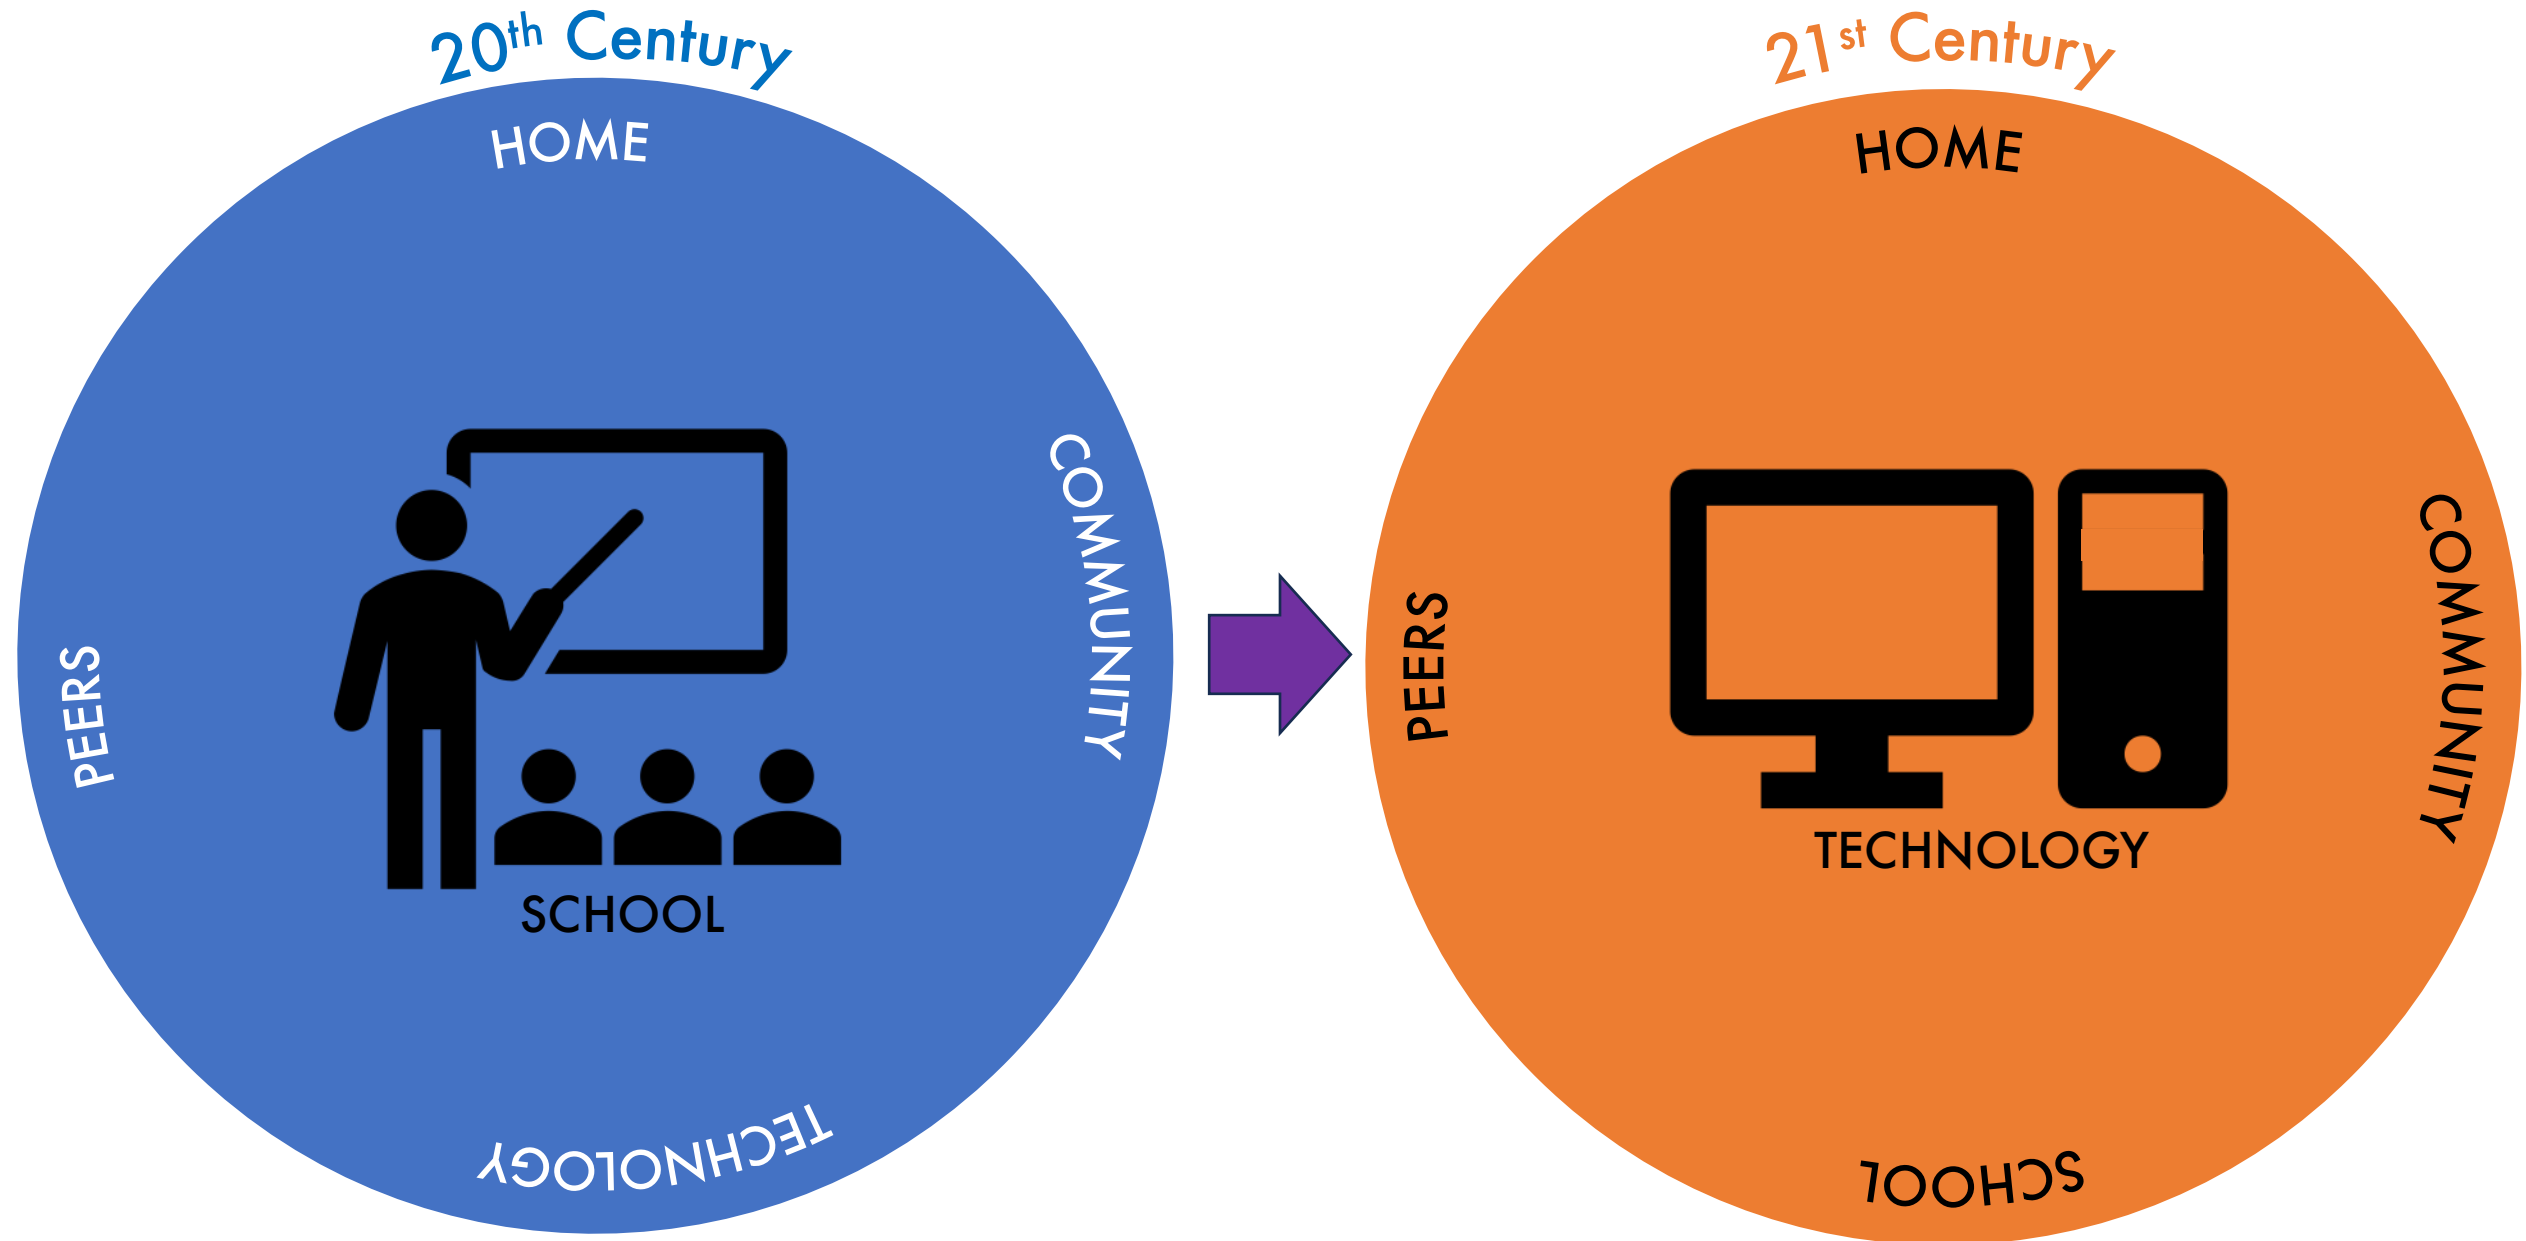

Part 2:

The New Paradigm of Schooling

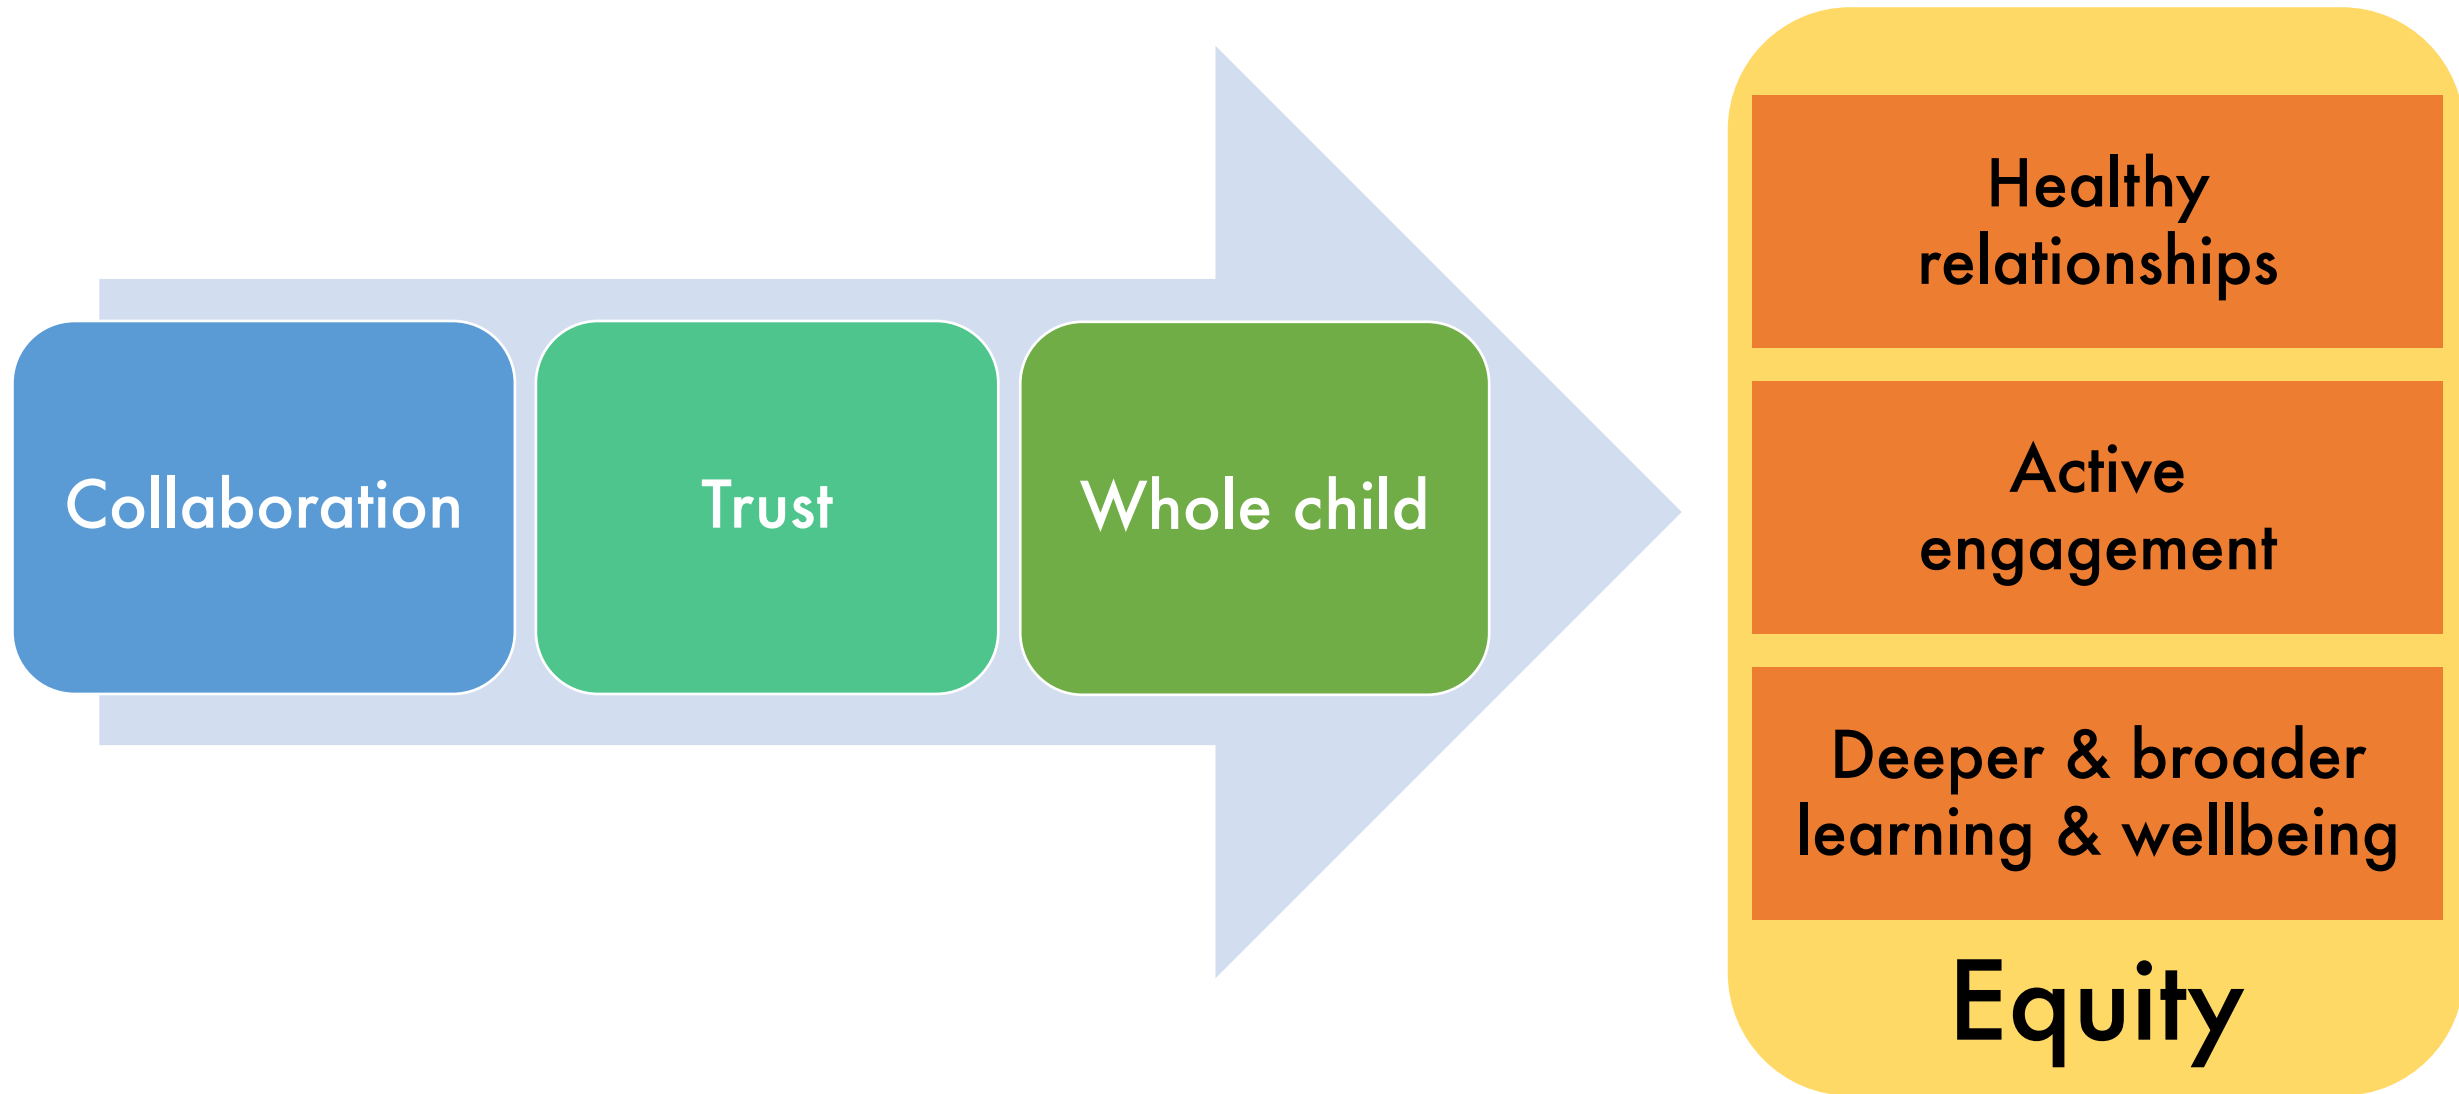

Global trends since 2000

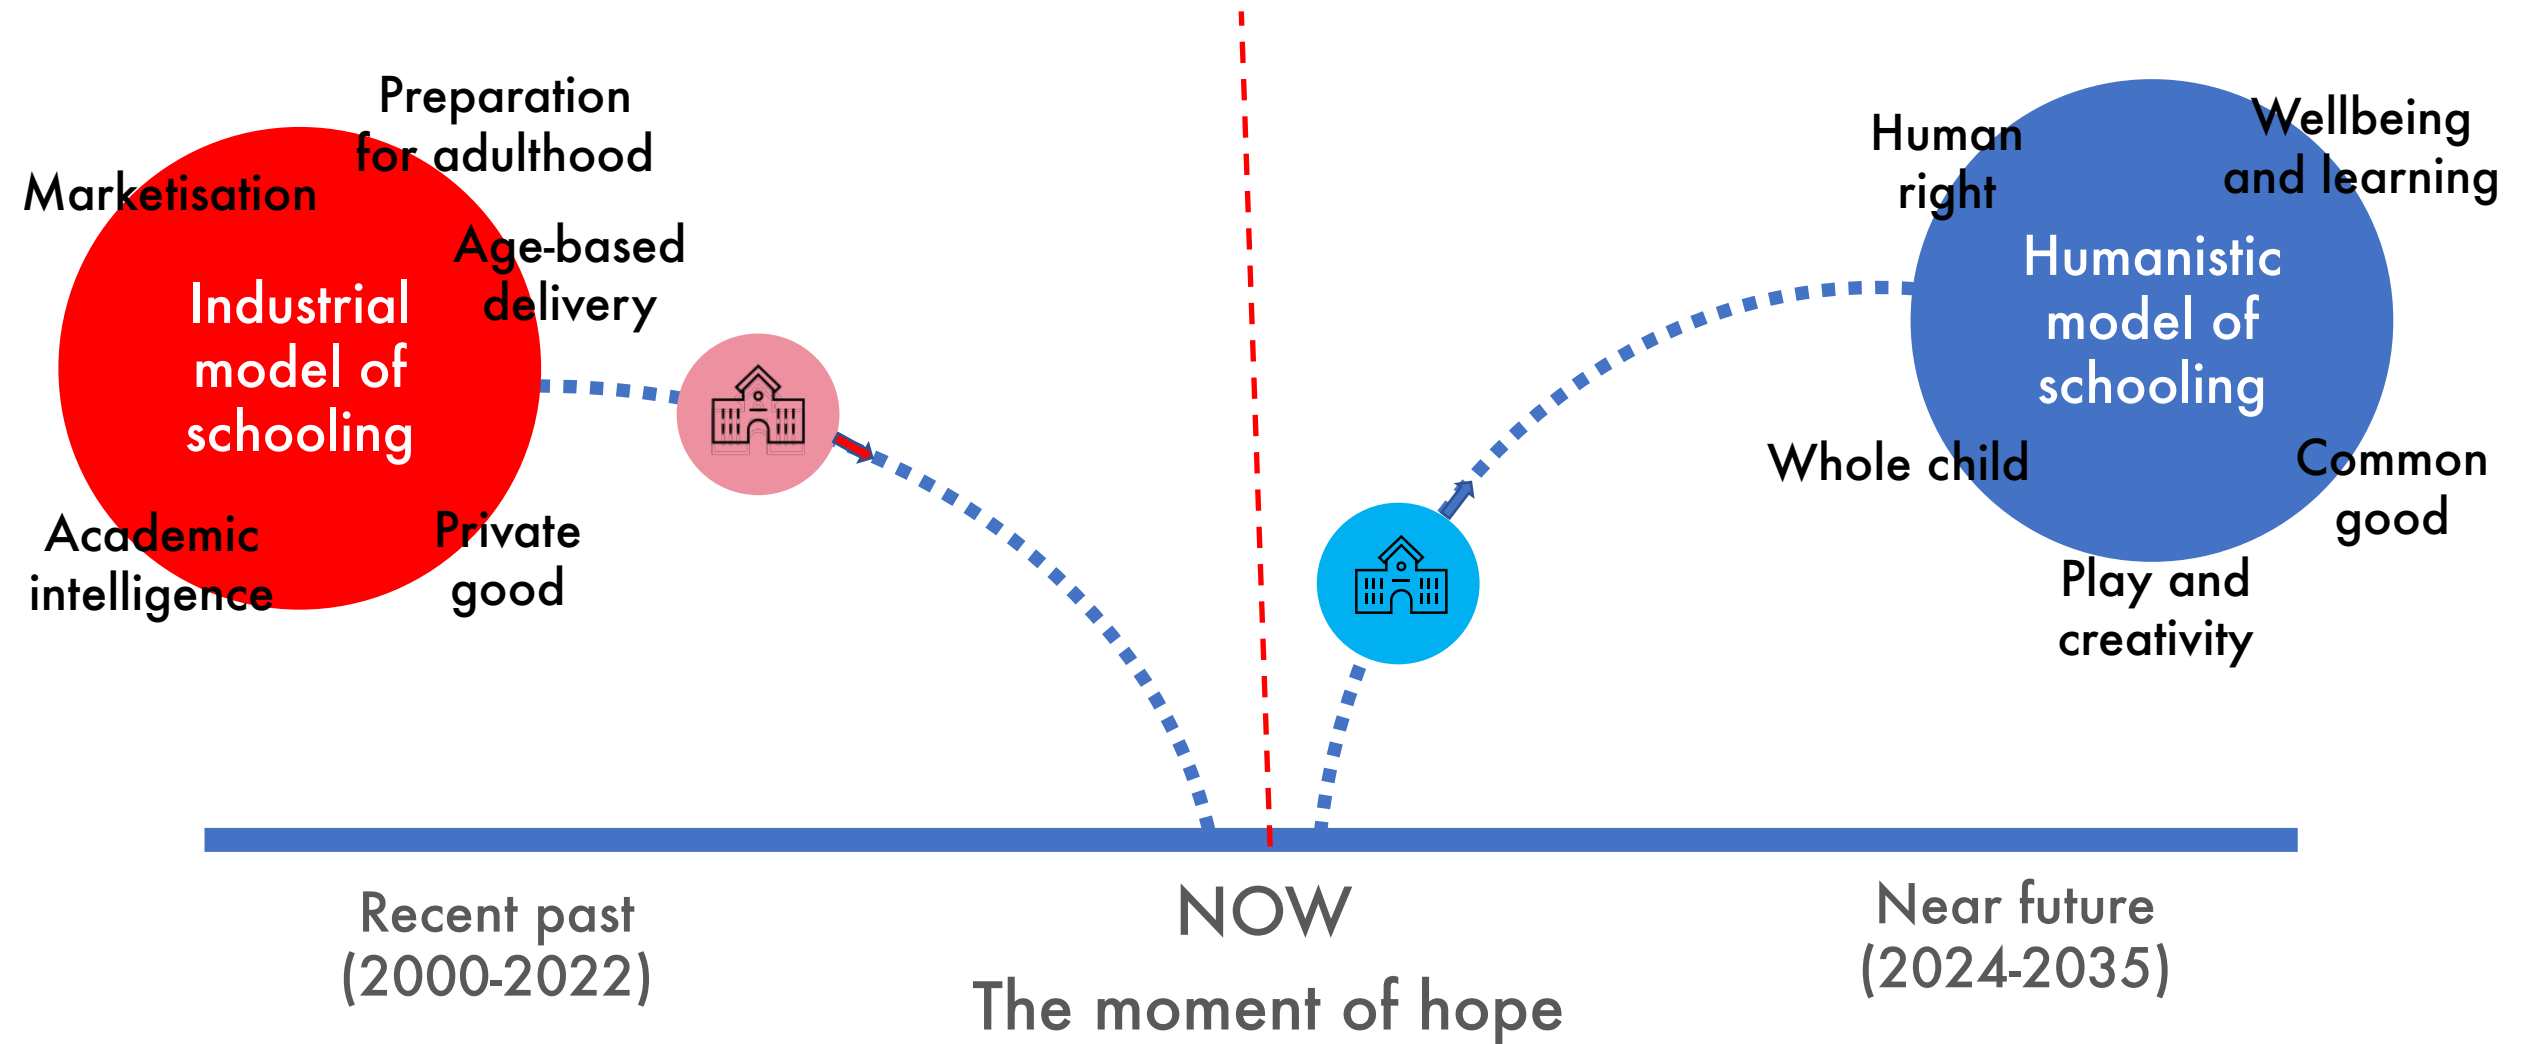

Changing locus of learning

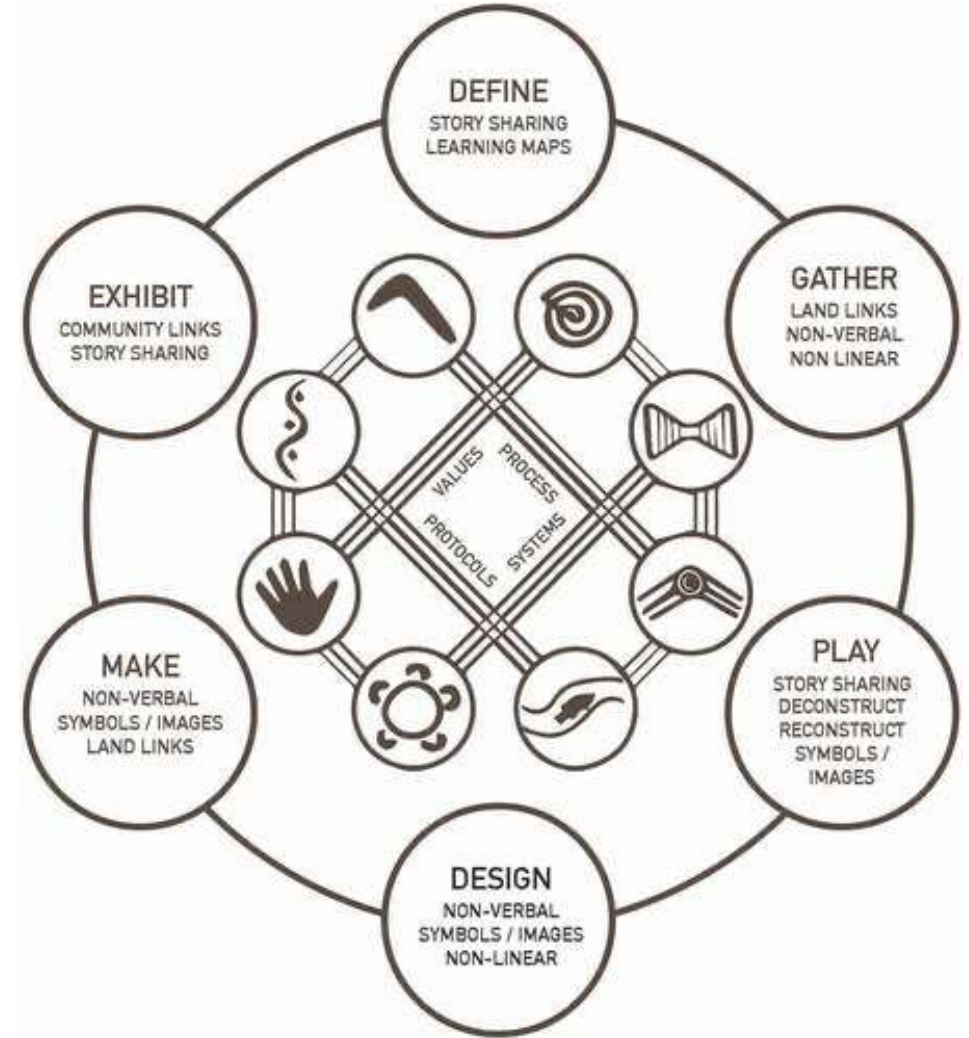

New paradigm for future school education

Bouncing back: A new social contract for education

Different ways 'to know' and understand the world.

REPOSITIONING our schools

- 1 Rethink what students can do.
- 2 Reimagine what school could be.
- 3 Reinvent public education.

Thank you!
